WHY THE JO COFFEE COLLECTION?

It is said blending and roasting coffee is an art. We agree. It is also said some art is liked better than others. To that our clients agree.

We purchase only from the top 2% of all Organic Arabica Coffee worldwide that has passed the expert analysis of a dedicated team of cupping experts. We do not purchase cheap coffee which is typical to many hospitality coffee providers.

We offer USDA Certified Organic and Fair Trade Certified exclusive coffee blends. Our single serve cups for Keurig 1.0/2.0 brewers use an eco-friendly, award winning recyclable cup technology, suitable for in-room coffee service programs.
